

22MM IEC PILOT DEVICES

SERIES 22 PRODUCT PROFILE

c3controls line of **22mm IEC Pilot Devices** includes a wide range of push buttons, pilot lights, selector switches, special operators, and accessories, all engineered for superior durability and long life. We offer multiple cap types for our push buttons, including flush, extended, and mushroom caps, and our light units are available in multi voltage and full voltage.

THE MOST INNOVATIVE LINE OF AMERICAN ENGINEERED 22 IEC PILOT DEVICES

✓ Proven	Our 22mm IEC operators are UL Listed and CE marked meeting global standards requirements.  
✓ Environmentally Secure	With 4/4X and IP66 ratings, our 22mm line of pilot devices are built to last and withstand dust, corrosion, ice, and rain.
✓ Easy to Install	Our “snap-on” contact blocks are color coded for quick circuit identification and feature 35° angled captive terminal screws and self-lifting pressure plates for fast and easy wiring.
✓ Quick & Simple	The latching mechanism enables the user to wire the contact blocks & light modules separate from the operator and outside the confined space of the control panel.
✓ Low Profile	The 22mm line assumes the lead in the industry with the shortest depth behind the panel.
✓ Rugged Design	Manufactured to be the highest quality—inside and out. With its metal appearance and sleek design, you know you are getting the quality you deserve.
✓ Visible Certifications	Our product certifications and electrical ratings are clearly marked on the outside of the contact blocks for easy reference during installation.
✓ Heavy Duty	Polyester construction provides superior durability, corrosion resistance, moisture rejection and electrical insulation.
✓ Flexible	Our contact blocks can be stacked 2 deep and up to 3 across for a total of 6 circuits, providing the flexibility to operate multiple control circuits from a single operator.
✓ Convenient	Reduce inventory with our interchangeable modular design, providing endless options for appropriate operator interface.
✓ 36-Month Warranty*	Every product is backed by our 36-Month Warranty—giving you confidence in the quality, reliability, and performance of components designed for the most demanding applications.
✓ Guaranteed Same-Day Shipping*	Product availability reduces inventory, and improves cash-flow—saving you money. With c3controls any order for standard catalog items received by 6:00pm ET is guaranteed to ship same-day.
✓ Advantage Pricing	Our approach to product development, manufacturing, and focus on servicing the OEM and Electrical Equipment Builder reduces cost. The result—the best value in the industry.

UNIQUE FEATURES

Shorter Depth & Rugged Design

- Our compact line saves you space behind the panel with our shorter contact blocks and light modules delivering the shortest depth 22mm Pilot Devices engineered in the USA. And with our metal appearance you get quality and durability inside and out.

EN418 Emergency Stop Operators

- c3controls maintained push-twist-release operators meet the global compliance standards for EN418—Safety of Machinery, and they feature a unique trigger action and are available in both non-illuminated and illuminated versions.

Exclusive Multi-Voltage Lights

- Our multi-voltage light units—the only U.S. engineered multi-voltage light in the industry!—operate at any voltage from 20V to 277V AC or DC without losing intensity, making them easily interchangeable across multiple applications.

One Cam Design

- Our single cam design eliminates the need for multiple cam and selector switch configurations, reducing inventory and saves you labor time and costs.

Save Time with Dual Push Buttons

- With the ability to combine the functionality of two operators in one space, our Dual Push Buttons save you in labor costs and time spent in installation. Our dual push buttons are available in both illuminated and non-illuminated versions making them perfect for any application.
